Please take care of below:

- Have one spoon of home-made desi ghee daily.
- Avoid using PALM OR REFINED OIL. Go with mustard oil for cooking.
- Keep water intake of 2.5 litres per day.
- You need to limit non-veg, can go with chicken or fish but once in a week only.

If you follow the diet plan atleast 95%, you will not fall short on protein and your sugar levels will be balanced. As you mentioned, the doctor has advised you to increase your protein intake — and that's already taken care of in the plan. Moreover, taking non-veg won't help with weight loss or improving your fatty liver condition.
